Summary: Nearly every site offers a daily *login bonus* of virtual currency, typically Gold Coins plus a small number of Sweeps Coins (SC) ¹⁰ ¹⁴ . The exact amount varies – many range from a few hundred to a few thousand GC and 0.1–1.0 SC (or equivalent) per day, while some like Chumba or Zula give much larger daily

amounts (100k–200k GC) ¹⁰ ²⁴ . Bonuses usually reset every 24 hours (often on login) and are credited instantly when claimed ⁶ ¹⁷ . A few sites also offer extra hourly claims (e.g. Punt's 1,000 GC + 0.1 SC each hour ⁷ or LuckyLand's 400 GC every 4 h ¹⁶). Many casinos scale the bonus with login streak or VIP status – for example Fortune Coins' 6-day program caps at 300,000 GC+100 FC (≈ 1 SC) ¹¹ , and WOW Vegas' bonus wheel gives higher GC/SC for higher VIP tiers ²³ . In all cases the bonus is delivered as virtual coins for play; players typically claim it by logging in and clicking a “claim bonus” button or spinning a wheel, with the coins added to their balance immediately ⁶ ¹⁷ .
